Introduction

Final-year Computer Engineering student skilled in Python, Java, ML/NLP, and full-stack development. Experienced in designing, testing, deploying, and maintaining scalable solutions with strong problem-solving, adaptability, and collaboration skills.

Education

- A. P. Shah Institute of Technology, Thane**, BE in Computer Engineering Nov 2022 – May 2026
- SGPA: Sem-1: 9.22, Sem-2: 9.3, Sem-3: 9.87, Sem-4: 9.25, Sem-5: 9.04, Sem-6: 9.48, Sem-7: 9.32
 - Coursework: Computer Architecture, Data Structures, Algorithms, Computer Networks, Operating System.
- K. D. College of Science**, HSC Percentage: 79.33 March 2022
- K. C. Gandhi English School**, SSC Percentage: 96 March 2020

Skills

Programming: Python, Java, C | Data Structures & Algorithms | Machine Learning & Natural language processing | Web Development: Django, Flask, Django REST Framework, HTML, CSS | Databases: MySQL, SQLite | Deployment | Soft Skills: Communication, Collaboration, Problem-Solving, Adaptability, Initiative, Time Management.

Projects

Job Hunt: Job Search Portal

- Designed and developed an NLP-based application in Python for resume parsing, deployed on PythonAnywhere. Tools Used: Python, NLP

CollegeConnect – College Social Networking Platform

- Developed and deployed a Flask-based social networking platform for college students, faculty, and alumni, enabling campus-focused interactions and community engagement.
- Implemented features such as user authentication, profile management, group discussions.

Library Management System

- Built a full-stack system with book cataloging, user authentication, and issue/return tracking and deployed on PythonAnyWhere. Tools Used: Django, SQLite

SmartDerm – Intelligent Inborn Talent Prediction System

- Built a Django-based web application using Python, OpenCV, and CNN to analyze fingerprint images and classify patterns through deep learning.
- Developed an end-to-end pipeline for image preprocessing, feature extraction, talent prediction, and automated report generation with personalized recommendations.

Experience

Artificial Intelligence Intern - Codec Technologies

July 2025

Artificial Intelligence Intern at Codec Technologies, Collaborated with a team to design and implement ML/NLP projects, gaining exposure to deployment and problem-solving. [Internship certificate](#)

Certifications

- **Programming & Development:** Oracle Java Developer, Python Developer, Django and Django REST APIs, Machine Learning & Flask, Natural Language Processing.
- **Cloud & Data Engineering:** AWS Cloud Foundations, Oracle OCI2025 Certified AI Foundations Associate
- **Cybersecurity & Networking:** Fortinet Network Security Associate, Zscaler Fundamentals of Cybersecurity, Juniper Networking Virtual Internship
